PROFILE

- Bilingual AI governance and public institutions policy researcher with four years across the OECD, the Internet Society, and the Government of Canada
- Experienced co-designing AI-enabled tools and applying structured policy-assessment frameworks for senior government audiences and at translating complex policy into clear guidance for stakeholders from ministerial level to the general public.
- Delivery and communications oriented, having co-authored OECD books, drove multi-country projects using qualitative methods (semi-structured/senior official interviews, NVivo coding, comparative case studies).

PROFESSIONAL EXPERIENCE

Researcher, Internet Society | Remote, Paris, France

May 2026-Present

- Conducting research on AI's impact on Internet and platform governance for digital sovereignty, applying structured policy-assessment tools (Internet Impact Assessment Toolkit) to national AI and data governance measures.

Policy Advisor ([Young Associate](#)), OECD | Paris, France

Sept. 2023-Sept. 2025

- Co-designed AI-enabled decision-making tools for government clients and authored strategic reports guiding responsible technology adoption; co-led two-day workshops on responsible AI use in government for 30+ senior stakeholders.
- Researched and co-authored the OECD book *Steering from the Centre of Government in Times of Complexity* (2024) and a *Public Governance Review of Thailand* (2025), incl. designing methodology, coding qualitative interviews in NVivo, and synthesizing evidence into concise, actionable reports. Wrote and designed a visual media summary.
- Drove delivery of a seven-country peer-learning project for the European Commission, developing research framework and standardized methodology, fact-finding interviews, and wrote implementation reports for leadership.
- Coordinated high-level events (2024 OECD Expert Group on Strategic Decision-Making; a 35-stakeholder workshop in Estonia with the UK Cabinet Office and Australian Public Service Commission), translating complex policy into clear messaging from ministerial level to the public.

Junior Desk Officer, Global Affairs Canada | Ottawa, Canada

May 2022-Sept. 2022

- Produced over 100 daily research briefings on political and security developments across the Middle East and North Africa, synthesising complex information into concise written reports and daily updates for senior officials.
- Monitored regional developments and open-source reporting to identify emerging risks and policy implications, contributing to situational awareness and informing internal policy discussions.

Junior Program Analyst, University of British Columbia (UBC) Co-op | Vancouver, Canada

May 2021-Dec. 2021

- Supported delivery of international virtual conference for 600+ participants, liaised with speakers and sponsors, and facilitated sessions. Prepared briefing materials and talking points to support senior colleagues.
- Produced quarterly written and oral presentations for senior leadership summarising program performance, using data from first-hand interviews with participants, survey and internal data, analysed in Excel, Qualtrics, and PPT.

Student Researcher, UBC ORICE & Human Rights Collective | Vancouver, Canada

May 2022-Apr. 2023

- Researched ethical human rights engagement undertaking 5 qualitative academic interviews in a multinational team; demonstrated strong writing skills by developing succinct analysis for UBC leadership.

LEADERSHIP EXPERIENCE

Editor-in-Chief, UBC Journal of International Affairs | Vancouver, Canada

Sept. 2021-May 2023

- Led publication of 2 annual journal editions, managing a team of 16 staff to assess 200 annual submissions, reviewing content and applying criteria to shortlist final publication.

Undergraduate Teaching Assistant, UBC | Vancouver

Aug. 2020 - May 2021

- Liaised between 120 students and 2 professors across 4 sections, utilized judgment and addressed individual situations independently in a timely and professional manner.
